

For thousands of years, those who inhabit the remote reaches of the world have understood the value of nutritional superfruits such as noni, pomegranate, aloe vera and goji berry. Any of these is a healthy addition to your diet — but none of them alone offers a complete range of nutrients.

Now, one drink has it all.

Nikken Ciaga contains all these exotic ingredients and more, including cherry, blueberry, grape and pear juices that contribute an array of phytonutrients. The combination creates synergy — a multiplying effect where the individual advantages of each are greatly increased. Ciaga offers 21 whole fruit, herb and natural organic extracts. The name represents the benefits it provides: cardiovascular, immune, antioxidant, gastrointestinal and adaptogenic.*

The synergistic blend produces ORAC (antioxidant) levels that are more than twice as high as other nutritional drinks. It adds impressive levels of cardio and immune support — benefits that the other drinks don't have. Ciaga contains no added water or preservatives, is all natural, good for you *and* tastes good. Enjoy Ciaga, and drink to your good health.
